Specification

1. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter.

There is no description of the lugs having a width extending across a substantial portion of the base of the track as set forth in claim 12. The specification is silent as to what would be considered to be a "substantial portion" of the width of the track.

See 37 CFR 1.75(d)(1) and MPEP § 608.01(o).

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 12-16 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Rubel.

The lugs 28, 34 of Rubel are considered to have a width which extends across a substantial portion of the width of the track inasmuch as they are width enough to propel the snowmobile through snow and further because the term "substantial portion" is not defined by Applicant.

Allowable Subject Matter

3. Claims 7, 17, 18, 19, and 20 are allowable over the prior art of record.

Response to Arguments

4. Applicant's arguments filed October 6, 2006 have been fully considered but they are not persuasive.

Since the term "substantial portion" of the width of the track is not defined in the claims or the specification, the lugs of Rubel are considered to extend across a substantial portion of the width of the track.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
